

# GENERAL INFORMATION

## TIME

The Bar 4 Shorthorn Production Sale will be held Saturday, September 25, 1976. The sale will begin promptly at 12 Noon.

## LOCATION

The Bar 4 Shorthorn Production Sale will be held at the Don Cagwin Farm, Philadelphia, Illinois. The farm is located one mile south of the elevator at Philadelphia, Illinois. Philadelphia is located on Route 125, 25 miles west of Springfield, Illinois, and 5 miles east of Virginia, Illinois.

## SALE HEADQUARTERS

The Holiday Inn East, Springfield, Illinois has been named sale headquarters and a block of rooms held. Since these rooms must be accounted for 10 days prior to the sale, we ask that you make your reservations early. Notify Cagwin Cattle Services, Inc. and they will make your reservations and confirm them to you.

## TRANSPORTATION

Springfield, Illinois is served by Ozark Airlines with excellent connections through both Chicago and St. Louis. Courtesy cars are available from the airport to the sale headquarters. Transportation will be provided from the sale headquarters to the Cagwin Farm, if advance notice is given to the sale manager. Rental cars are available at the Springfield Airport.

## PRE-SALE GATHERING

Plan to arrive Friday afternoon for a leisurely look at the Bar 4 Sale cattle and the modern facilities at the Cagwin Farm. You are cordially invited for cocktails and light refreshments at 5 p.m. Friday evening at the Cagwin home.

# TERMS AND CONDITIONS

## TERMS

The terms of this sale are cash unless previous arrangements have been made with the Bar 4 Partners (Carvin Guy, Floyd Fredrickson, and Robert Miller) or the Sale Management Firm. Settlement to be made with the clerk immediately following the auction and before cattle are removed from the Cagwin Farm.

## LIABILITY

All persons who attend the sale do so at their own risk. Neither the owners, employees, auctioneer, sale manager, or other affiliated personnel can be responsible for any accidents, but they will make every effort to provide for the safety and comfort of those attending.

## REGISTRATION AND TRANSFERS

All cattle sell with completed American Shorthorn Association certificates and will be transferred to the new owners immediately following the sale.

## HEALTH

Each animal will be represented by a State approved health certificate in accordance with the health regulations for interstate shipment. Buyers should make themselves aware of the health requirements of their respective states. Cattle sold to Canada and Wisconsin will be returned to South Dakota and be held and tested for those areas before

shipping. The Bar 4 herds practice the most stringent health programs and no problem meeting your states' requirements are anticipated.

## BREEDING GUARANTEE

The standard guarantee endorsed by the American Shorthorn Association will be followed. A provision of this guarantee is that notification to the seller within six months of the date of the sale must be given if an animal fails to be a breeder.

## DELIVERY OF CATTLE

Bar 4 guarantees it will cost no more than \$50 per head to deliver your cattle to Central points throughout the Continental United States or nearest Canadian Port of Entry, payable to the clerk at the time of settlement for your cattle. Since this sale is being held at Cagwin's Farm all sale cattle must be removed within 48 hours of the sale. Reliable truckers will be in attendance sale day and your purchases can be loaded immediately.

## MAIL BIDS

We sincerely hope that you will be able to attend. However, in the event that you cannot, you may be assured that your mail and phone bids to any of the personnel connected with the sale will be handled in strictest confidence and with the highest integrity.

# THE BAR 4 STORY

**Left to right: Floyd Fredrickson, Carvin Guy and Bob Miller.**

In 1974 a major decision that will affect the Shorthorn industry for years to come was made around a kitchen table in Veblen, South Dakota. That decision was the formation of the BAR 4 CATTLE CO., consisting of Carvin Guy, Veblen, South Dakota; Floyd Fredrickson, Petersburg, North Dakota, and Robert Miller, Fordville, North Dakota.

Right away they made their presence felt at major

shows throughout the land with their longer, taller, growthier, dual-purpose cattle.

All three partners have spent a lifetime in the Shorthorn business. Dating back to 1916 when the Miller herd was founded, and up to 1962 when Floyd Fredrickson started his herd. Carvin Guy started operation in 1942 and has maintained a registered herd since 1956. Certainly the experience, cattle knowledge and down-right cow sense that these people possess is an asset to the Shorthorn breed. They own the herd bulls together and rotate them throughout their herds. However, the cows are maintained and owned individually. Cattle are shown and sold collectively and much the same rigid performance program is in operation in all three herds. They weigh calves at birth, at weaning, at yearling and cull their mother cows on the basis of pounds produced per cow. In addition, all bulls are tested on official 140 day test and only the very top end retained. The success of this program is evidenced by the repeat customers for their commercial Shorthorn bulls.

As you might expect, the Bar 4 cows are not pampered. They are maintained year around under range conditions in very large pastures and required to calve every year. The laggards soon find their way to town.

OFFICE 217/452-3232 • HOME 217/452-7520

Cagwin Cattle Services, Inc. • Box 156, Virginia, Ill. 62691

**Dear Shorthorn and Polled Shorthorn Breeders:**

It is with great pleasure that we present to you this tremendous offering of breed improving Shorthorn and Polled Shorthorn cattle. The Bar 4 organization, headed by Carvin Guy, Bob Miller and Floyd Fredrickson, placed their entire herds at our disposal. It was a very rare opportunity to be allowed to select the sale cattle from the very heart of their herds. There is no doubt in my mind that there are herd bulls, foundation females and show winners in this sale that we will hear about for many years to come. Anyone who is interested in breeding Shorthorns and Polled Shorthorns that will compete with the entire beef cattle industry should be a buyer September 25th.

We would like to point out to you that these cattle have been raised and handled under practical range conditions and these cattle have been accepted by the commercial ranchers of the west. We feel that the Shorthorn breed has made great progress since these cattle are also accepted by the purebred industry as proven by their tremendous success in the show ring.

We realize that some of these cattle are horned, but believe that there are many characteristics of these cattle that can work tremendous breed improvement. I hope that you will not let this influence your selections.

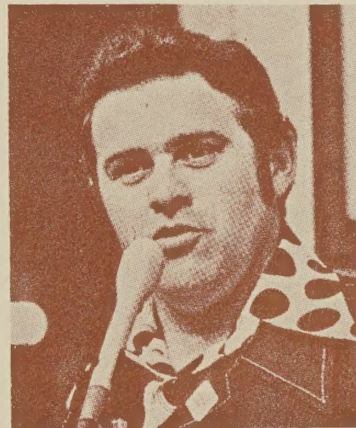

I would like to take this opportunity to invite you to my farm at Philadelphia, Illinois on the afternoon of September 24th to view these cattle and be our guest for a Social Hour that evening. If I or any member of my staff can be of further help to you, please feel free to contact us.

Sincerely,  
CAGWIN CATTLE  
SERVICES, INC.

Don Cagwin  
Sale Manager

DC:vw

Professional Sale Management and Private Treaty Sales

**DON CAGWIN**

This sale offering is a cross section of the Bar 4 Production with the emphasis on 1976 heifer calves. These calves will just be weaned from their mothers and are the very top end. No doubt, there are future champions and certainly outstanding foundation females among them. They deserve your very careful inspection.

Further, Bar 4 has endeavored to share their program with you by offering the full brothers, Hilltop Lancer 457, the 1975 National Champion and the Polled, Hilltop Lancer 538 x. These bulls will be placed in the ring together and your choice will be sold. The other will return to the range and spend his lifetime working progress in the Bar 4 operation. Evidence of the organization's high regard for these two bulls is the fact that 457 bred 70 cows naturally this summer and 538 x bred 50 cows naturally. They will be ready to work for you.

## HERE'S WHAT SOME OF OUR CUSTOMERS SAY

The cattle I have purchased from Bar 4 are producing extremely well. The cows have developed well and their calves are always at the top of the calf crop.

Last winter I bought some cows from Bar 4 bred to Lancer. The calves out of these cows are the most exceptional calves I've ever had. They are long, well muscled and have a lot of frame and all calved unassisted.

I am real satisfied with the cattle and it is a pleasure to do business with the Bar 4 Partners.

Sincerely,

Michael Harvey  
Finley, North Dakota

We have been most pleased with the purchases made from Bar 4. The cows are certainly of foundation caliber and their off-spring have been well accepted by the commercial cattle people in our area.

We have been especially pleased with Nelco Apachi. He has grown into a very outstanding, mature bull. Not only was he a successful show bull for us, but more importantly he is a great breeding bull. His first calf sold near the top of our state sale and another daughter, as a senior calf, was grand champion 4-H heifer for our children this year.

I have been in many herds of cows the past couple of years, I would like to say that your cow herds would have to rank with the best in the business. I would like to thank you for selling me this group of cattle, and most importantly for your honesty in representing them to me.

Best of luck to you in your upcoming sale.

Sincerely,

HIGHLAND VIEW FARM  
Ed Chamberlin  
Mooreland, Indiana

We thought you might be interested in knowing how cattle from Bar 4 have performed for us in the past year. We made our first trip to that country last September to look at cattle. We were looking for club heifer prospects for our kids, but came home with a steer and bull calf as well. The steer is from the cross of Hilltop Warrior on the dual purpose cows in the Carvin Guy herd. Here is a Shorthorn steer that exhibits growth, frame and correctness enough to compete with the exotics and crossbreds. He has brought comment everywhere we have had him and was Reserve Champion at the Iowa State Junior Shorthorn Show at Indianola, Iowa on July 18th. During the months of June and July, the hottest weather we had all year, this steer gained over three pounds per day on feed. He is weighing around 1,200 lbs. at this time; a March calf.

We plan to show the bull at the Iowa State Fair. He is a May 12 calf that we pasture bred to twelve heifers and weighed him July 1st right off the grass at an even 1,000 lbs. We are especially pleased with this bull's length, strength of top, correctness and growthiness.

We just returned from a trip during which we inspected the cattle in all three of the Bar 4 herds. They are all putting their very best cattle in this sale and they are cattle that are bound to do the Shorthorn breed a world of good.

Sincerely,

Jim Scott  
Leon, Iowa

I've known Carvin Guy, Floyd Fredrickson and Bob Miller for two and half years, and have purchased cattle from them.

In the fall of '74 my family and I visited the Guy Ranch and selected four 4-H heifers and fifty bred heifers. One of the heifers shown by my daughter won several championships in '75 including Grand Champion Female of the Open Class at Iowa State Fair.

I have visited the Guy Ranch several times in the past two years. I have enjoyed seeing the cattle and the hospitality at the Guy Ranch has been great.

I have been pleased with the cattle purchased from these fellows and enjoyed visiting with them as well.

Sincerely,

I O - WAY FARMS  
Orville Luedtke  
West Liberty, Iowa

## THE JUDGES LIKED THEM TOO!

The following would be my impression of Hilltop Lancer 457 and Hilltop Lancer 538 x after judging them at the Houston Livestock Show:

"Hilltop Lancer 457 and Hilltop Lancer 538 x are bulls that will keep Shorthorns very competitive with the other English and exotic breeds.

457 is a bull of tremendous size, scale, trimness, length, soundness and muscle. 457 could change the breed for the better.

538 x is a little more moderate in his extremeness of scale, length and trimness, but is a very growthy, muscular bull that may suit a breeder seeking a very large middle of the road bull. He also has an added advantage in that he is Polled.

Both bulls are very outstanding and will surely have superior breeding accomplishments."

Sincerely,

STEIGER SHORTHORN FARM  
Roger Steiger  
Delavan, Illinois

From what I observed this summer, I would say that Lancer is the best breeding Shorthorn bull that I have ever seen. He consistently puts tremendous frame, muscle, bone and trimness into his calves. Lancer is very prepotent and never fails to sire a highly acceptable calf out of any kind of a cow.

Of course, many people who saw Hilltop Lancer 457 thought he was certainly one of the best bulls of any breed on the 1975-76 show circuit. I saw a number of his first calves and was highly impressed with them. He looks like he is well on his way to becoming a top breeding bull at a relatively young age.

In summary, I am very enthused about the Lancer line of cattle and what it can do for the beef cattle industry.

Sincerely,

Harlan D. Ritchie,  
Professor, Michigan State University

---

July 11, 1976

I have had the opportunity to judge them, to help show them and be around them all last winter at the major shows. I find that they are very modern, standing on a good length of leg, plenty of stretch and very clean in their neck, brisket and flanks. They indicate that they have extreme growth ability and should do breeders a lot of good whoever uses them.

Really, I have never been to the Bar 4 Cattle Co. and I know nothing about their herd at home but I do hope what little observance I have mentioned will help your sale because I can honestly say they won under me where I judged them.

Cordially yours,

Joe W. Lewis

Millvale Lancer 3rd (center in this group) is the service sire of two females selling. He is also a full brother to Lot 12.

### THE LANCER INFLUENCE

Nodak King's Tradition, more popularly known as **Lancer**, has established a dynasty in the Shorthorn breed that has been unmatched in history. The record of his sons and daughters in the show ring has never been equalled. Further, his influence on the commercial front, although largely unheralded, during his first four years in the breeding herd has been tremendous. Ranchers like the growth and bred in do-ability that he passes to his offspring. The number of sons working in commercial herds are actually too numerous to count. This sale will feature the largest offering of his progeny to the purebred industry ever presented. For those persons looking for the kind of cattle to win next year's shows, for the kind of cattle to found a Lancer influence in their herds, for the kind of bulls that will work improvement for years to come in the business, this sale has been designed for you.

#### NODAK KING'S TRADITION (LANCER)

We know he looks a little rough here, but remember, he's seven years old, has run with cows all of his mature life and has always been on the range.

**Lot 1                      THE NATIONAL CHAMPION**  
**HILLTOP LANCER 457 3573-050-m**

Tattoo LE 457    RE 457

Red, white marks. Calved April 16, 1974. Bred by Mrs. Ernest Schlekewy, Lake City, South Dakota; owned by Carvin and Gerald Guy, Veblen, South Dakota.

**HILLTOP LANCER 457** — The 1975 National Champion Bull and All-American Early Spring Yearling. 457 was Grand Champion at the 1975 National Show in Louisville, American Royal, International, Dixie National, Houston and Fort Worth; Reserve Grand Champion at the National Western and Iowa State Fair. 457 weighed 82 lbs. at birth, had a 205 day adjusted weight of 783 lbs. with an index in our herd of 117. His actual weight at 365 days was 1,205 lbs. His W/D/A at one year was 3.3 lbs. 457 was undoubtedly the most popular bull shown this year. Many females in this sale carry his service and there are a limited number of his progeny available here. Seldom in the history of the beef cattle industry have herd sires of this quality been made available to the buying public. Hilltop Lancer 457 has bred 70 cows this summer. This is a very impressive record for a two-year-old.

**HILLTOP LANCER 538 x** — In limited show ring exposure this past season, 538 x was Reserve Grand Champion to his full brother at Houston and Fort Worth. He was calf champion at the Dixie National. 538 x weighed 84 lbs. at birth, had 205 day adjusted weight of 676 lbs. with an index in our herd of 116. His actual weight at 365 days was 1,130 lbs. His W/D/A at one year was 3.1 lbs. This young, Polled bull is a tremendous individual that shows the potential to be even greater. Progressive Shorthorn breeders should think strongly about taking advantage of the opportunity presented to them here. Several females in this sale carry his service. Hilltop Lancer 538 x has bred 40 females this summer.

Never before have two herd sires of this quality been offered for sale at the same time. Hilltop Lancer 457 and his Polled, full brother, Hilltop Lancer 538 x will be put in the sale ring at the same time. The buyer with the highest final bid will get his choice of these two great sires. Two-thirds ( $\frac{2}{3}$ ) interest and full possession will go to the buyer. An opportunity such as this has rarely, if ever, been presented to Shorthorn breeders in North America.

**HILLTOP LASSIE 4118** — Has a red, horned bull calf born 7-2-76, sired by Hilltop Warrior 459. Sells rebred to Hilltop Warrior. Lassie 4118 is the All-American late spring yearling heifer. She was Grand Champion Female at the American Royal, National Western and Fort Worth. She was Reserve Junior Champion at Houston. First in her class at the North American, Dixie National and the Illinois State Fair. This heifer was one of the most popular champions in recent years. Opportunities to buy females of this quality are very rare. Her bull calf is a tremendous individual, who is destined to follow in his dam's footsteps.

**NELCO MAYFLOWER H 5th x** — An outstanding daughter of Hillview Hobo and out of Nelco Mayflower 2nd x by F.A. Warrior 41st x, who was probably the most outstanding heifer we ever raised. We have refused many offers to sell her, but now you can buy her great daughter. **Pasture bred to Nelco Prince Charles's** by Nelco Sunnybrook x and out of a top Rorvig cow.

Daughters of Hilltop Waverly 217x, typical of the calves selling in this sale.

**LOT 79—FEMALE**

**Floyd Fredrickson**

**NELCO KATE 2nd x3600-313**

Tattoo LE 7549

Roan. Calved July 20, 1975. Bred and owned by Floyd Fredrickson, Petersburg, North Dakota.

**SIRE:**
